

UNLV CI WORKSHOP

Discover knowledge from data with
cyberinfrastructure technology

November 13, 2015 1:00 pm – 3:00 pm
UNLV SEB Building Room 4259

For two years, we were working on the cyberinfrastructure technology to provide our research community a better tool for multidiscipline data processing and visualization. Now we are more than happy to announce service is *available!*

Come to learn and see how our cloud-based toolkit can benefit your research.

Agenda:

- Project background
- Introduction to Data Storage, Processing and Visualization tools
- Hands-on example: visualizing climate data

Who should attend:

- NEXUS NSHE faculty, postdocs, graduate students
- Other Graduate with emphasis on data processing

Register: <http://goo.gl/forms/JTxCRmf5Fz>
